

Modena Cento Ore Classic

Gara internazionale di velocità e regolarità per auto storiche
International competition and regularity rally for classic cars

There is a place in Italy which gave birth to some of the greatest creators of sports cars ever. Today this place is still home to some of the world's most famous manufacturers of "dreams on four wheels". In 2000, at the beginning of the new millennium, a group of car enthusiasts from Modena started this project, which quickly became one of the most appreciated events by collectors and gentlemen drivers from all over the world.

Dream cars, oil and gasoline, track races and mountain hillclimbs, wonderful landscapes and exciting roads, award-winning chefs and great wines. All of this is the legendary Modena Cento Ore Classic, a unique event in Italy, one of the best in the world.
