We are pleased to announce the Modena Cento Ore 2016, which will take place from June 7th to 12th: an Italian "Coast to Coast" from Rimini to Florence and Forte dei Marmi, to finish in Modena as our tradition requires.

“Life is racing. Everything else is just waiting.”

*(Steve McQueen)*

Now in its 16th birthday, the 2016 Cento Ore will feature a coast-to-coast route with 3 circuit races and a dozen uphill special stages, in 4 days. Participants will also savour the best hotels of Rimini, Florence, Forte dei Marmi and Modena, evening entertainment, lunches and dinners in unique locations, great chefs and the best Italian wines, and the cosy and friendly atmosphere we really care about.

The “Cento Ore” is a great combination of wonderful cars, gentlemen drivers, competition, tourism, gastronomy and relaxation. It is also the only classic rally in Italy, and one of the few in the world, where participants can compete on circuits and mountain roads closed to traffic.

It is possible to enter either the competition or the regularity section: both share the same route, circuits, hillclimbs and evening programme. As always, we will accept a relatively small number of vehicles and owners (80 crews) in order to ensure the success of the entire event.

Don't miss the opportunity to join this unique rally: apply soon as spaces are limited and will fill up quickly!

The “Cento Ore” is an exciting journey on a wonderful scenic route with circuit races, hillclimbs on closed roads and unique evenings in astonishing locations, all sewed together with touristic and cultural hints. And you can enjoy it either in the Competition or in the Regularity section: it is the only event in Italy which offers you all of this!

Created in 2000, The Cento Ore is a great combination of luxury tourism and motor racing, handled by a team of passionate professionals from Scuderia Tricolore and Canossa Events.

The main goal for participants of the Modena Cento Ore Classic is to enjoy the five days route across Italy and arrive on time at the final check point in Modena on Saturday afternoon. Note that even if your car has technical problems and you miss some time checks or special stages, you will get a penalty but you will always be allowed to drive to the finish!

## **Competition: Drive as fast as you can!**

In the competition section, the ranking is made by the sum of the times you achieve in circuit races and special stages plus any penalties; the "Index of Performance" Classification is corrected with a coefficient based on age and technical specifications of the car.

## **Regularity: enjoy the tour and take your stopwatch with you**

This category is recommended to competitors who are not motor racing experts and to the ones who prefer to enjoy at best the pleasure of the tour. Regularity has a slightly more relaxed schedule.

The regularity section runs exactly on the same route of the competition section and features timed laps in circuits and timed trials on roads closed to traffic.
