CUERVO Y SOBRINOS OFFICIAL SPONSOR OF MODENA CENTO ORE 2016

Historiador Pequeños Segundos A passion for speed and thrills

For the first time, Cuervo y Sobrinos will be the official sponsor of the “Modena Cento Ore Classic”, Edition 2016. The race will take place from 7 to 11th of June on a “Coast to Coast” route, which starts from Rimini and passing through Florence, will reach Forte dei Marmi and ends in Piazza Grande, in Modena.

In tribute to Marzio Villa’s passion for timed- and high-speed auto races, Cuervo y Sobrinos has created an Historiador Pequeños Segundos, a special watch dedicated to the winners of the race.

The Historiador collection is the Cuervo y Sobrinos best seller collection and the Historiador Pequeños Segundos the latest collection launched in Basel 2016, in the Colors of Havana. For the Modena Cento Ore, Cuervo y Sobrinos has prepared a special edition only for top drivers. The dial is personalized with the “Modena Cento Ore” logo in red to underline the passion for speed and thrills.

The Historiador Pequeños Segundos (small seconds) is a classic and timeless watch; an elegant timepiece to satisfy a refined, demanding public seeking luxury products that endure and withstand ever-changing current fashions.

Inspired from an original CyS design of the 50s, this model has a vintage touch underlined by the case diameter of 40 mm, by the double curved sapphire crystal (in the past those were in acrylic hesalite crystals), the graphic design of the dial and the classic small seconds at 6 o’clock and date at 3 o’clock .

The timepiece is available only in a Special Edition, in ivory color dial with “Modena Cento Ore” logo in red, indices and CyS logo applied. The collection is available on sale, in the master collection.
